SKILLS

LANGUAGES

Java Python PL/SQL

FRAMEWORKS

Spring Boot Spring Batch
ReactJS React Native Flask

CLOUD & DEVOPS

Azure Docker GitLab CI
Ansible Jenkins Terraform

DATA

Oracle MongoDB MySQL
Redis ElasticSearch
Metabase

MESSAGING & API

Azure Service Bus Kafka
REST SOAP

QUALITY

JUnit Mockito SonarQube
Datadog

EDUCATION

EPITECH
Master — Architecte Logiciel &
Développeur Web
Sep 2021 — Aug 2023 · Marseille

Université Aix-Marseille
Licence — Développement Web
Sep 2018 — Aug 2021 · Marseille

CERTIFICATIONS

- AWS Solutions Architect
2023
- W3Schools Certifications
2021
- TOEFL
2020

LANGUAGES

Français — Natif
Anglais — Courant (TOEFL)
Arabe — Natif

CENTRES D'INTÉRÊT

Course à pied (Marathon)
Boxe (Muay Thai) Swimming

SOFTWARE ENGINEER

EXPERIENCE

Docaposte / Infogreffe Nov 2025 — Present
Valbonne, France

- Migration of a legacy monolithic architecture to a microservices ecosystem (Java Spring Boot) hosted on Azure, with asynchronous communication through Azure Service Bus and ElasticSearch integration.
- Migration and full redesign of CI/CD pipelines from Jenkins to GitLab CI combined with Ansible for an automated deployment process.
- Improved observability and monitoring (Datadog / Azure App Insights) and modernized reporting through dynamic Metabase dashboards.

Stack : Java · Spring Boot · PL/SQL · Oracle · ElasticSearch · Azure Service Bus · GitLab CI · Ansible · Docker · Metabase · Datadog

CEGEMA Dec 2023 — Nov 2025
Villeneuve-Loubet, France

- Configuration and integration of web services within the Salesforce management platform.
- Administration and management of Oracle and MongoDB databases.
- Migration of SOAP web services to a RESTful API, with performance and scalability improvements.

Stack : Java 17 · Spring Boot · Spring Batch · Oracle · PL/SQL · Microservices · Kafka · Docker/Podman · Jenkins · GitHub

FDJ — La Française des Jeux Sep 2021 — Aug 2023
Vitrolles, France

- Development of a web portal to improve access to essential resources.
- Automation pipeline for generating reports and dashboards through multi-API aggregation.
- Web application for email notifications (HTML templates) during critical incidents.

Stack : Python · ReactJS · Flask · Java · REST API · GitLab · Grafana · ServiceNow

CNRS Apr 2021 — Sep 2021
Marseille, France

- Implementation of a robust CSV parser (pandas/Python) handling multiple delimiters and encodings.
- Conformité des fichiers générés aux conventions de métadonnées NetCDF Climate & Forecast (CF).

Stack : Python · ReactJS · PyTorch · Java · REST API · GitLab · Machine Learning

PROJECTS

Reservation Management

JAVA · SPRING BOOT · SPRING SECURITY · JWT · GIT

- Complete CRUD API for creating, retrieving, updating, and canceling reservations with secure JWT authentication.

Mobile App — Financial Advisor

REACT NATIVE · SPRING BOOT · CLERK · OPEN-BANKING API · DOCKER · MONGODB

- Mobile financial advisor app with budget tracking, personalized insights, and Open-Banking integration.
